

"Asthma Friendly" Programs

Parents, Teachers, Students and
Child Care Facilities!

The Oklahoma Asthma Initiative (OAI) is dedicated to reducing the burden of asthma within Oklahoma. The OAI is seeking to partner with **schools and child care facilities** to create an atmosphere that is sensitive to those that are impacted by this serious chronic illness by providing education and awareness programs--at no cost!

In exchange for the participation in the "Asthma Friendly" program, the OAI will:

- **Publicize** your accomplishments
- **Provide a certificate** recognizing your participation in the "Asthma Friendly" program
- Parents and school/child care personnel will receive a **certificate of completion**

School/Child Care Facility Name: _____

Address of Facility: _____
